

How to Use Safe Keywords in Your Content

✓ Titles & Descriptions:

- Instead of: “Best THC Strains for Sleep”
- Say: “Top Plant-Based Remedies for Restful Nights”

✓ Tags & Metadata:

- Use alternative phrasing like "natural wellness" or "botanical research"
- Avoid explicit cannabis-related terms in hashtags & video tags

✓ Captions & Subtitles:

- Manually edit auto-generated captions to replace flagged terms
- Use neutral phrasing to describe cannabis-related topics
